

## Promote yourself as Tutor

- Get in touch with the young parents in your neighborhood. They'll most likely trust a known person more than anyone when hiring a tutor.
- Tell people you know about your subject skills. Introduce yourself in social settings subtly but do drop in a hint about your tutoring skills every time.
- Promote yourself in social media. Use your tutor profile link and YouTube link in the website.

To get your 'Tutor Profile' link, do the following:

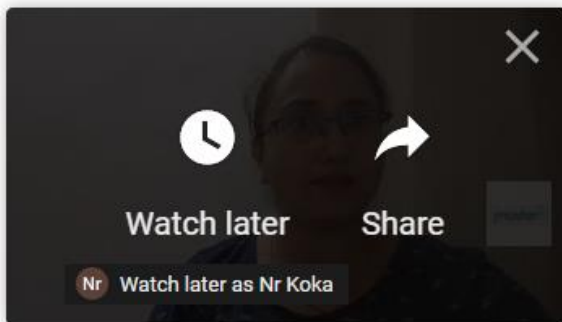

- (1) Click 'Select a Tutor' drop-down.
- (2) Select the language
- (3) Below your YouTube video, click the button

- (4) When your profile page is displayed copy the link in the url window. Use that link as your Profile link in social media.
- (5) Go back to your YouTube video link
- (6) Click your YouTube video.
- (7) On the YouTube video click the three vertical dots.

- (8) Click the share button and share your YouTube video with the social media.

Happy Tutoring. If you have any questions, please send us an email to [support@masterit.co](mailto:support@masterit.co) or [masteritco786@gmail.com](mailto:masteritco786@gmail.com)
